**Academic Year:** 2020-2021  
**Date of birth:** 1<sup>st</sup> January 1994  
**Option:** Automotive and Power Engineering  
**Class:** Bac I

| Code    | Course Name                          | Credits | Marks/20 | Credit max | Percentage |
|---------|--------------------------------------|---------|----------|------------|------------|
| BAAE111 | Introduction to Computer Science     | 2       | 17.8     | 35.6       | 89         |
| BAAE112 | Business Communication for Engineers | 2       | 18       | 36         | 90         |
| BAAE113 | Computer Science                     | 2       | 17.6     | 35.2       | 88         |
| BAAE114 | Business English                     | 2       | 17       | 34         | 85         |
| BAAE115 | Computer Aided Design                | 2       | 15       | 30         | 75         |
| BAAE116 | Engineering Mathematics I            | 2       | 17.5     | 35         | 87.5       |
| BAAE117 | English for Engineers                | 2       | 16.5     | 33         | 82.5       |
| BAAE118 | Engineering Mathematics II           | 2       | 18       | 36         | 90         |
| BAAE119 | Machine Tool Technology              | 2       | 16       | 32         | 80         |
| BAAE110 | Entrepreneurship and Development     | 2       | 17       | 34         | 85         |
| BAAE121 | Organizational Behavior              | 2       | 16.5     | 33         | 82.5       |
| BAAE122 | Production Technology II             | 3       | 17       | 51         | 85         |
| BAAE120 | Mechanical Engineering Drawing       | 3       | 16.5     | 49.5       | 82.5       |
| BAAE124 | Environment Management               | 3       | 17       | 51         | 85         |
| BAAE125 | Engineering drawing                  | 3       | 18       | 54         | 90         |
| BAAE126 | General Chemistry                    | 3       | 16       | 48         | 80         |
| BAAE127 | General Mathematics                  | 2       | 17       | 34         | 85         |
| BAAE128 | Thermodynamics                       | 3       | 16.5     | 49.5       | 82.5       |
| BAAE129 | Electrical Technology                | 3       | 17       | 51         | 85         |
| BAAE130 | Engine Construction and Systems      | 3       | 18       | 54         | 90         |
| BAAE131 | Engine Technology I                  | 3       | 16.5     | 49.5       | 82.5       |
| BAAE132 | Engineering Construction and System  | 3       | 16       | 48         | 80         |
| BAAE133 | Industrial Training I                | 6       | 18       | 108        | 90         |
|         |                                      | 60      |          | 1021.3     | 85.1       |
| Verdict | Promoted to BAC II                   |         |          |            |            |

Ouagadougou, 25<sup>th</sup> August 2024  
Director General

Dr Issa COMPAORE  
Officer of Came's International Order of Academic Palms

|                                                                                                                                                                                                                                      |                                                                                                                                                                    |                                                                                                                                        |                                                                                                                        |                                                                                                                                           |                                                                         |
